Short Description

An introductory guide to the reptiles of southern Africa, aimed at newcomers to herpetology.

Description

What's That Reptile? introduces beginners to the diverse reptile fauna of southern Africa, including its snakes, lizards, crocodiles, tortoises, terrapins and turtles. The book encourages readers first to study reptiles in their broader natural groups before taking them to the next stage of identification, namely the species. The text is simple and accessible, giving helpful information on the appearance, distribution, habitat, behaviour, diet and breeding habits of species. Interesting fact boxes and an abundance of clear, colour photographs bring these remarkable creatures to life.
