## Short Description

An authoritative and comprehensive volume on the reptiles and amphibians of the Australian Capital Territory.

## Description

**Reptiles and Frogs of the Australian Capital Territory** are numerous, diverse and of increasing interest to scientists and amateurs alike. This authoritative and comprehensive volume is an up-to-date work for everyone with an interest in these fascinating creatures. Beautifully presented, *Reptiles and Amphibians of the Australian Capital Territory* combines concise descriptions with superb photography to allow accurate identification of all fifty-two reptiles and fifteen frogs found in the region. Additional information describes their distribution and gives an insight into their private and often complex life histories. This book is an essential addition to the library, glovebox or backpack of anyone who has the opportunity to explore the world of reptiles and frogs, from Canberra's suburban gardens to the peaks of the Brindabella Ranges.

**Ross Bennett. 90 pages. 2011. Softcover. ISBN - 9780959826791**
