Short Description

A guide to the unique geckos of the islands of the western Indian Ocean.

Description

Geckos of Madagascar, the Seychelles, Comoros and Mascarene Islands (Terralog 12) is a presentation of the geckos inhabiting the islands of Madagascar, the Seychelles, Comoros and Mascarenes. Without any doubt, members of the genera *Phelsuma* and *Uroplatus* are amongst the most popular geckos native to the numerous islands of the western Indian Ocean. This book, as part of the Terralog series, provides photographs and information on several as yet undescribed forms, and takes into consideration the latest taxonomic changes and systematics of the genus *Phelsuma*.
