Price: \$80.00

Short Description

A useful guide to the herpetofauna of the Margalla Hills National Park region.

Description

A Contribution to the Herpetology of Northern Pakistan is a comprehensive guide to the herpetofauna of the Margalla Hills National Park region and surrounds. One of the standout features is the dichotomous key, which when coupled with the dot-point locality maps, high-quality colour photographs and accurate diagrams and line drawing, make identifying a species simple and streamline.

Rafaqat Masroor. 217 pages. 2012. Hardcover. ISBN - 9783899734997
