**Price: \$90.00**

## Short Description

A great guide to the tree frogs of Africa.

## Description

**Treefrogs of Africa** is an excellent review of the frogs of the families *Rhacophoridae*, *Hyperoliidae* and *Hyla* found in Africa. This title features concise, standardised accounts for 254 species, subspecies and/or geographic races. Individual species accounts provide information on the recognition, voice, reproduction and habitat of each form when known and include black and white dot locality distribution maps. Also included are general information chapters that briefly review the taxonomy, distributional patterns, conservation, collection and preservation and captive care of African Tree frogs.
